HOW THE POLL WAS CONDUCTED

This poll was conducted by Mason-Dixon Polling & Strategy, Inc. of Jacksonville, Florida from January 30 through January 31, 2019. A total of 625 registered Mississippi voters were interviewed statewide by telephone. All said they vote regularly in state elections.

Those interviewed were randomly selected from a phone-matched Mississippi voter registration list that included both land-line and cell phone numbers. Quotas were assigned to reflect voter turnout by county.

The margin for error, according to standards customarily used by statisticians, is no more than ± 4 percentage points. This means that there is a 95 percent probability that the "true" figure would fall within that range if all voters were surveyed. The margin for error is higher for any subgroup, such as a gender or age grouping.

QUESTION: Would you support or oppose a law in Mississippi that protects the personal information of individuals who donate to causes and charities of their choice?
